Subject: Deficient Reclamation Surety and Reclamation Contract, Clay Holman, Fossil Lease, S/027/070, Millard County, Utah

Dear Mr. Holman:

On 5/17/2007, the Director of the Division of Oil, Gas and Mining signed the reclamation contract for the Courgraph Project Notice of Intention to Conduct Mining, file number, S/027/070. A copy of the executed reclamation contract/surety is enclosed for your records. This action has made it possible for your existing reclamation surety to be in place with the Division, however you should note that there are deficiencies either in your Notice of Intent or in your surety/bond amount that need to be rectified.

Right now the amount of surety/bond that is currently posted does not correspond with the information in your NOI. Based on the information in the NOI the Division has determined that you must post additional surety in the amount of \$2,400 for a total surety of \$5,900.

If your Notice of Intent is not specific as to the area planned for disturbance, you may wish to amend the notice to more accurately reflect your plans. At such time as we receive and review an amended NOI we will determine an appropriate reclamation cost based on the new information and notify you of any changes needed to your surety/bond. If you choose not to amend your NOI we will expect the above stated amount to be filed with the Division within 30 days.
